

## Origin

Localidad:	Priaranza del Bierzo
Región:	Bierzo
D.O.:	No

## Varieties

Variedad(es) de uva:	Mencia 100%
----------------------	-------------

## Vineyard

Nombre del viñedo(s) o de la zona(s) de producción:	El Ruedo, El Cementerio, La Cerámica
Altitud y exposición del viñedo(s):	600 mts. SO
Tipo(s) de suelos:	Clay with mixed minerals, quartz, iron, slate and gold
Edad(es) de las cepas:	80-95 años
Tiempo y método de vendimia (manual o mecanizada):	Second-Third week of September, manual harvest in 15kg cases.

## Vinification Method

Vinificación (incluso despalillado, cuba de fermentación, control de temperatura, duración de maceración, método de prensado):	Destemmed grapes, macerated during 4-5 days in oak tanks
Envejecimiento/crianza (incluso cuba de envejecimiento, duración sobre lías, duración total de envejecimiento en acero/barrica/botella):	Elevage during 6 months in different size Oak barrels, No fining, No filtered.

12,5% Vol.

PRODUCT OF SPAIN

Lote 2019

75cl

WINE	1984
VINTAGE	2022

## Properties

Graduación:	12.5%
Azufre total:	10mg/l
Acidez total:	5.10
pH:	3.78
Botellas producidas:	10.100
Azúcar residual:	1.0 g/l

## Vintage Report

<p>Descripción de la añada (el clima, comparación con otros años, dificultades en el viñedo, otras observaciones)</p>	<p>2022 begun after a warm and not so much rainy autumn as usual, after that winter was dry and cold, so dry... the driest in the last 50 years... if 2021 had the record of precipitation this 2022 starts with records too... after that springtime comes with some rain in the beginning... but in May the mark point of this vintage starts... we face the first heat Wave of the year... 40°C in a day in May in here was something not expected...that makes some storms coming in the beginning of summer... after June... heat wave after heat wave and record of high temperatures after record... that makes the driest and warmest summer of all history...</p>

**1984**

Some rain and storms comes finally at the end of august, that help plants.. but damaged in some cases is done... fruit doen't grow well during summer time and plants protect themselves stop growing, that makes another unusual and challenge vintage, if in 2021 was the excess of rain 2022 was totally the opposite, plants need a range of precipitation and temperature to grow grapes in the right direction... this kind of extremes situation affect the correct growing of the grapes and make another mark point into us, Global Warming is in here and this kind of extremes situations show us how chaotic organic farming could be in the near future but at the same this vintage teach a lot of how different varieties could adapt to different situations.

RED WINE / VINO TINTO

En botella desde Mayo de 2020. Elaboración natural vino no clarificado; no filtrado

Cultivado y elaborado por Bodegas y Viñedos La Senda S.L.U.

Embotellado para Bodegas y Viñedos La Senda S.L.U. por: R.E.N.5278/LE-Camponaraya(LEÓN) -ESPAÑA

Contiene sulfitos. Contains sulphites. Contient des sulfites. Enthält Sulfite. Bevat Sulfieten
