

VIÑEDOS de MATAALLANA / Ribera del Duero

Matallana (2019)

Since 1998, we have come to appreciate Ribera del Duero in a different way. We are committed to the recuperation of villages with great viticultural traditions by restoring exceptional old vineyards and by re-planting the villages' best sites "the old way" (respect of the plot, field blend of local massal selection, traditional planting density, bush vines...). From the northern area of Sotillo de la Ribera with its calcareous slopes to the reddish mountains of Pardilla in the south, we chose five villages with different soils and landscapes. We believe that by combining their best elements we can create a unique Ribera del Duero wine.

Today, Matallana has eleven vineyards totalling 21.5 ha. These vineyards are the guarantee of the integrity of our wines.

The absurd regulations in our country have not permitted us to show the names of the vineyards on the label: we decided to maintain them, blacked out – one day they will see the light.

VINTAGE CHARACTERISTICS

2019 was marked by the good quality and the sanitary status of the crop. The cycle began with a lack of rain in spring and some isolated frosts of no relevance. It continued with high temperatures and dry weather that contributed to the ripening process during the final phase of the cycle. The harvest began on 4 October and ended on the 15th.
